

### CHARACTERISTICS AND COMPOSITION

Housing made from sheet steel.  
 Reversible door made from sheet steel with  $\varnothing 3$  mm double Bit locking system and 2 profiles (welded and painted).  
 Mounting plate made from sendzimir steel.  
 Cable entry closure flange (with polyurethane gasket) made from sheet steel.  
 Set of screws for grounding and assembly.

### PAINTING

ETA standard finishing cycle: paint-based primer with deposition by cathoresis with epoxy resin and finishing using thermosetting powders. Colour: RAL7035 textured.

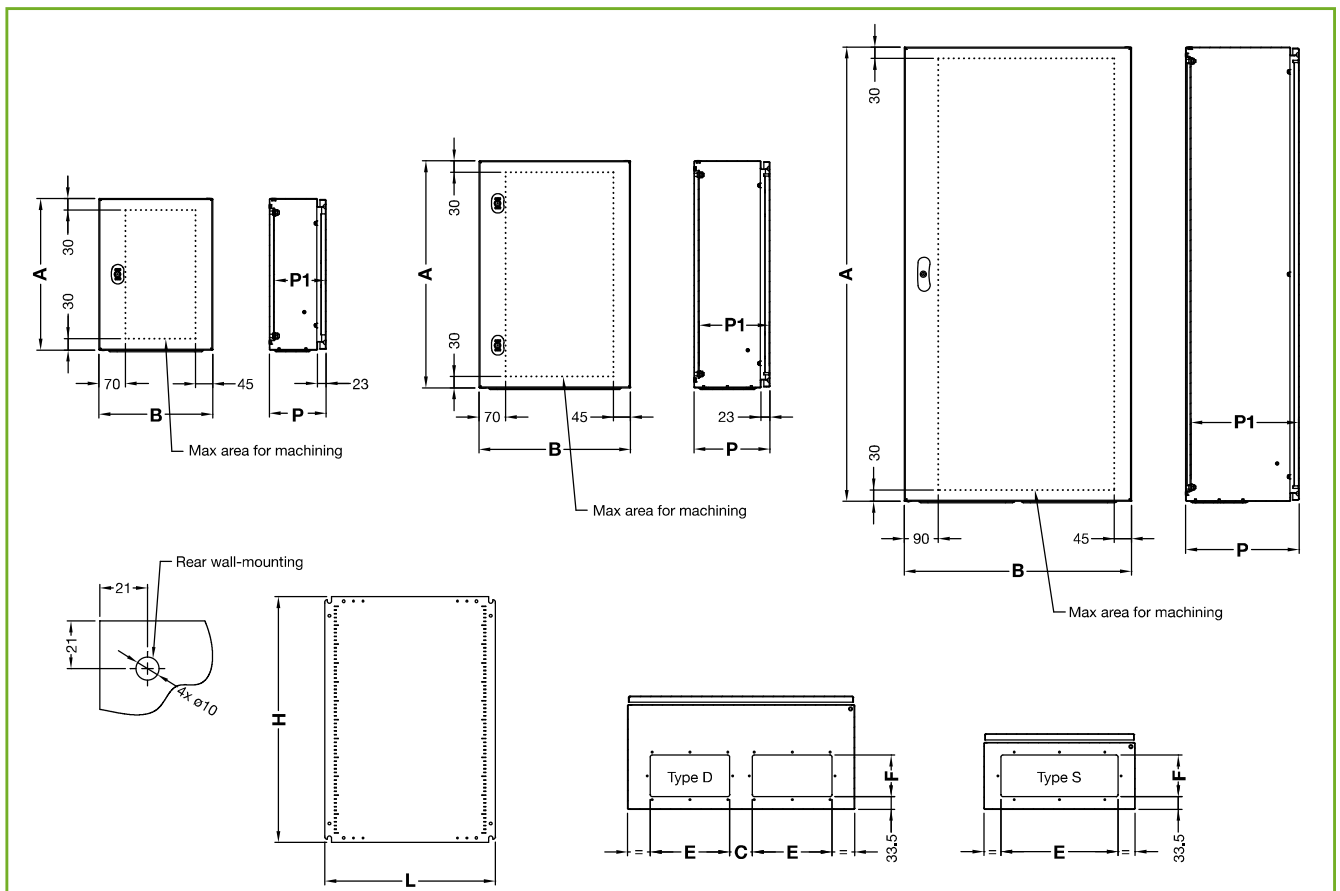

### PROTECTION RATING

- IP66 compliant with IEC EN62208 and EN60529.
- NEMA4 compliant with UL508A and UL50.
- Protection rating ensured by the two-component polyurethane foam gasket.
- Impact resistance rating IK10 in compliant with IEC EN62208 and EN62262.

Space markings on Mounting Plate (removable with appropriate product) to facilitate wiring.  
**Except for: 200x300, 250x300, W  $\geq$  1000 mm.**
